# UTILITY & CONSTRUCTION MATTING SYSTEMS

ICON offers a full line of wood and composite matting systems for the utility and construction industry. Whether you are looking for matting systems needed for crane support, pipeline projects, temporary road access, trestle bridges or other unique applications we can supply a product built to your unique specifications that meets the strictest industry standards, ensuring you a superior product every time. Available mat products include but are not limited to; crane mats, dragline mats, Emtek® engineered laminated mats and durable and re-usable composite DuraDeck mats.

ICON has partnered with some of the nation's largest suppliers so we can always provide competitive pricing, fast delivery and the best personalized customer service.

## WOOD MATS

### Heavy-Duty

Wood mats are used by the utility, construction and drilling industry to support the heaviest machinery and equipment the market has to offer. Mat lengths available up to 40' long and can be 3.5" to 18" thick depending on the application. Loading and unloading of wood mats is generally done with a forklift, loader, excavator or crane onsite. Shipping can be handled by outside carrier flat bed load or by train depending on the quantity ordered for rental or sale.

### Crane/Dragline Mats

Constructed using mixed hardwood, Douglas Fir or Oak timbers.

- Sizes up to 40' in length
- Thickness from 6" to 18"
- Exposed bolts or cable

### Laminated Mats

- Standard 8'x16', 3-ply mats or special order
- Cables or chains

### Emtek® Mats

- Engineered hardwood glue-laminated mats
- Thickness from 3.5" to 7.5"
- Design values available for each thickness

## DURADECK MATS

### Lightweight Composite Mats

Composite mats both protect your expensive turf and provide access and traction over sand, mud and other difficult surfaces. DuraDeck access mats may be used to create temporary roadways for vehicles, trucks, equipment, large working pads for drilling operations, administrative compounds, bone yards, temporary flooring or other industrial applications.

The DuraDeck composite access mat is a unique molded plastic mat that is durable, lightweight and extremely strong. Sections are engineered to provide ground protection, access over soft surfaces, provide a firm support base and traction for numerous other activities. DuraDeck sections can be carried by 1-2 persons and positioned easily as required on a jobsite. No tools are required for installation or removal of the mats.

Support up to 80-ton loads with a lightweight mat system

### DURADECK SPECIFICATIONS

MODEL	SIZE	WEIGHT	RECOMMENDED SUPPORTING
DD1	4' X 8'	86 lbs.	19+ Tons
DD1	3' x 8'	65.5 lbs.	18+ Tons
DD1	2' x 8'	43 lbs.	8+ Tons

*\*All mat orders for purchase come with a choice of color Black or White.*

Perfect for sporting events, concerts, political functions, county fair grounds and other high pedestrian traffic areas.
